

Requisition Number:

Job Description.

MIRA is a world-class, independent engineering consultancy, operating in multiple locations around the world, to support vehicle manufacturers and their supply chain with cutting-edge engineering and testing expertise .

We offer full-system design, test and integration expertise to automotive, defence, rail and transport industries and also specialise in developing low carbon and autonomous and co-operative driving technologies.

At our headquarters in the Midlands, we have access to one of the most comprehensive vehicle proving grounds which boasts 93km of test tracks and over 35 world-class test facilities and laboratories. Our facilities, combined with the engineering expertise of our 600 strong team makes MIRA Technology Park Europe 's number one location for transport sector R&D.

Title of Job:	Vehicle Emissions Technician		
Department:	Engine Test & Vehicle Emissions		
Grade:	2R		
Date Required:	ASAP		
Salary Range:	Competitive		
Number Required:	One		
Location:	Nuneaton		
Reason for Vacancy:	Workload in Vehicle Emissions Testing		
Contract Type:	Permanent:	<input type="text"/>	Contractor: <input checked="" type="checkbox"/>
Responsible To:	Vehicle Emissions Supervisor		
Subordinates:	None		

Main Purpose of Job
<ul style="list-style-type: none"> To execute facility set up and running of vehicle emissions testing

Key Functions
<ul style="list-style-type: none"> To undertake emissions test installations and set up in support of engineering test programmes To support test efficiency improvements with a focus on minimising customer costs To run system checks and maintain equipment in optimal state To maintain inventory and history of test equipment and hardware to enable maximum utilisation and reuse of available equipment and hardware To drive vehicle emission test cycles to achieve legal requirements
