

Requisition Number: 23184

Job Description

HORIBA MIRA is a global provider of pioneering engineering, research and test services to the automotive, defence, aerospace and rail sectors. We work in close collaboration with vehicle manufacturers and suppliers around the world, providing comprehensive support ranging from individual product tests to turnkey engineering design, development and build programmes.

With over 70 years' experience in developing some of the world's most iconic vehicles, our engineers utilise the latest test facilities and simulation tools to make vehicles and journeys safer, cleaner, more efficient and rewarding.

The combination of our Electromagnetic Compatibility (EMC) engineering experts and our extensive range of state-of-the-art test facilities, means that we are a world-leader in engineering design, test and consultancy. With the rapid growth in automated vehicle systems, complex powertrains and wireless technologies our EMC engineering services provide excellent career opportunities.

Title of Job:	EMC Test Technician/Engineer			
Department:	EMC 0452			
Grade:	Technician /Engineer (depending on experience and qualifications)			
Date Required:	Immediately			
Salary Range:	£26 - £35k depending on experience 42.5 hours per week (8.5 hours per day) Shift premiums payable on base salary			
Number Required:	1			
Location:	HORIBA-MIRA Nuneaton			
Reason for Vacancy:	Transfer of role internally			
Contract Type:	Permanent:	Yes	Contractor:	No
Responsible To:	Team Leader			
Subordinates:	None
